**Course Descriptions**

**COM 170 INTERPERSONAL COMMUNICATION 3(3-0)**

This course is designed to explore and develop an individual's communication skills within the context of interpersonal relationships, small groups and society as a whole. Over the course of the semester, a variety of educational approaches may be used including writing, speaking, collaborative and independent learning, role playing, independent research and written reports. GENERAL EDUCATION DISTRIBUTION AREA: Communications

**B 161 INTRODUCTION TO BUSINESS 3(3-0)**

An introductory course for business students that is also useful for those in other fields. The course objective is to take students with limited business backgrounds and introduce them to a variety of business topics by reading about and discussing current business activities and problems. Topics include capitalism, communism, socialism, forms of business organizations, the stock market, the bond market, banking, insurance, management, labor relations, accounting information and business ethics. Students will read, watch, discuss, and become involved with business topics and problems.
